

Emma Franklin

3rd Grade

I really want to be a vet when I grow up, so I thought this contest was really cool.

If I were asked to help at a local animal shelter I would be asked to do a list of chores for them. First, I would have to feed and water the pets. Then I would have to clean and brush dirty pets. After that I would clean out their cages in case any accidents were to happen. After my chores were done I would be asked to make a sign saying that the pets are lonely and need homes.

I would also have to love on them and care for them. Maybe I would be asked to give some of them names. I also could be asked to call families to see if they have lost a pet. They could already have tags, so I would call their owners. Then I would form a pet show so animals could be sold easily. After the pet show, I would feed the animals then sell all the pets except one. Then I would buy the last one. After that I would close up the shop!
