## **A Piece of Yours**

**Think about all the homeless animals that don't have a home, food, and love. An animal is like a person. It can't talk, but it does have a heart, a heart that needs a piece of yours.**

**Adopting an animal is like saving a life. Some of the animals have to be put to sleep because you don't give them your piece. So I think it is good to adopt one.**

**Give it a piece of your heart and see that it would change the world for them. I think if you can't take care of your pet, don't dump it, throw it or give it away to the shelter. Find someone that will give them their piece.**

**So, think again about all the homeless animals. I suggest adopting at least one animal or donating food, money, or even blankets. Remember, an animal has a heart that needs a piece of yours.**
