Helping Animal Shelter

If I could help an animal shelter with dogs I would be honored to because I love dogs! I would train, feed, and play with dogs.

When I feed them I would feed them dog food, blueberries, water, and apples because fruits are good for them. I would feed them three times a day 9:00am, 3:00pm, and 8:00pm but a little bit of water at night because then they need to go potty.

When I train them I'll use treats because they should get rewards for when they do tricks. When they start doing trick I'll get the smell of the treats on my hand for them to think I have treats then they'll start doing tricks by them self. I would train them manners too cus it's not polite to take food of the table. I would train them for 3 hours at ten AM every day.

Who let the dogs out? I did cus it's time to play!!! Of course every dog needs to play, to rest from training. I would play with them at 1:00pm for 2 hours with chew toys and stuff like that.

Well that's what I would do to help dogs get adopted for them to have a better life because they deserve it!
