

- E. Refuse Facility Screened. Each refuse facility shall be completely screened from view of public streets and adjoining nonindustrial zoned properties by:
1. meeting the requirements of the other sections of this ordinance; or
 2. Screening on three sides by a minimum 8' masonry wall enclosed by an evergreen living screen. Screening shrubs shall be a minimum of 4' in height at installation. An opening shall be situated so that the container is not visible from adjacent properties or public streets and the opening shall be a metal clad opaque gate. Chain-link gates are not permitted. Gates must have tie backs to secure in the open position. (Amend Ord 04-073, 8/10/04)
- F. New refuse facilities placed on existing development shall be screened in accordance with this Section.
