VENDOR QUESTIONS AND ANSWERS

Q: My firm is interested in submitting an SOQ for the above referenced project. Unfortunately we have no experience with federally funded projects. I've also noted that experience with federal projects counts for 15% of the overall evaluation. Would this loss of 15% of the possible points knock us out of consideration for this project, or would we still have a reasonable chance to get this project?

A: There is no minimum score requirement for consideration of the SOQ. The top five (5) rated prospective firms will be invited to present to the selection committee.

ACKNOWLEDGMENT

The undersigned acknowledges receipt of this **Addendum No. 1** and the RFQ Response is submitted in accordance with information, instructions, and stipulations as specified.
