Annual Contact Report 2014

The Arlington Police Department

(I) Introduction

Opening Statement

January 9, 2015

Arlington City Council
101 W. Abram Street
Arlington, Texas 76010

Dear Distinguished Members of the City Council,

The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted the Texas Racial Profiling Law in 2001. The Arlington Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements are now in place. These most recent requirements have been incorporated by the Arlington Police Department and are also being addressed in this report.

In this report, you will find three sections that contain information on traffic and motor vehicle-related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the manner in which the Arlington Police Department has complied with the Texas Racial Profiling Law. In section 1, you will find the table of contents in addition to the Texas Senate Bill (SB1074); which later became the Texas Racial Profiling Law. In addition, you will find the Texas HB 3389, which, in 2009, introduced new requirements relevant to racial profiling. Also, in this section, a list of requirements relevant to the Racial Profiling Law as established by TCOLE (Texas Commission on Law Enforcement) is included. In addition, you will find, in sections 2 and 3 documentation, which demonstrates compliance by the Arlington Police Department relevant to the requirements as established in the Texas Racial Profiling Law. That is, you will find documents relevant to the implementation of an institutional policy banning racial profiling, the incorporation of a racial profiling complaint process and the training administered to all law enforcement personnel.

The last section of this report provides statistical data relevant to contacts, made during the course of motor vehicle stops, between 1/1/14 and 12/31/14. In addition, this section contains the TCOLE Tier 2 form, which is required to be submitted to this particular organization by March 1st of each year. The data in this report has been analyzed and compared to data derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report.

The findings in this report serve as evidence of the Arlington Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

TCOLE GUIDELINES

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an "agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties."

The article further defines race or ethnicity as being of "a particular descent, including Caucasian, African, Hispanic, Asian, or Native American." The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person's race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer's best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, "the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose."

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary

None

Standard 6

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling (S.B. 1074)

AN ACT

relating to the prevention of racial profiling by certain peace officers.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided

by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(1) a physical description of each person detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the traffic law or ordinance alleged to have been violated or the suspected offense;

Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled

under Article 2.133 to:

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

Art. 2.136. LIABILITY. A peace officer is not liable for damages arising from an act relating to the collection or reporting of information as required by Article 2.133 or under a policy adopted under Article 2.132.

Art. 2.137. PROVISION OF FUNDING OR EQUIPMENT. (a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A),

the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

(II) Responding to the Law

Institutional Policy on Racial Profiling

414.00 RACIAL/BIAS-BASED PROFILING

414.01 POLICY, PURPOSE, AND DEFINITIONS

(Effective 12-31-01) (Revised 08-21-08)

This Racial / Bias-Based Profiling Policy is adopted in compliance with the requirements of Articles 2.131 through 2.136, Texas Code of Criminal Procedure and the CALEA Standard 01.02.09, which prohibits peace officers from engaging in racial/bias-based profiling.

Definitions:

Racial / Bias-Based Profiling. Is defined as a law enforcement-initiated action based on, but not limited to, an individual's race, ethnicity, national origin, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable groups; rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity. Racial / bias-based profiling pertains to persons who are viewed as suspects or potential suspects of criminal behavior. The term is not relevant as it pertains to witnesses, complainants, persons needing assistance, or other citizen contacts. (A 01.02.09)

Race or Ethnicity. Of a particular descent, including Caucasian, African, Hispanic, Asian or Native American descent.

An Act Constituting Racial / Bias-Based Profiling. Acts initiating law enforcement action, such as a traffic stop, a subject stop, a search, issuance of a citation, or an arrest based solely upon an individual's race, ethnicity, national origin, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable groups; or on the basis of racial or ethnic stereotypes, rather than upon the individual's behavior, information identifying the individual as having possibly engaged in criminal activity, or other lawful reasons for the law enforcement action.

Subject Stop. An interaction between a peace officer and an individual who is being stopped for the purposes of an investigation in which the individual is not under arrest.

Traffic Stop. The stopping of a motor vehicle by a peace officer for an alleged violation of law or ordinance which regulates traffic.

414.02 PROHIBITION

Officers are strictly prohibited from engaging in racial / bias-based profiling in traffic contacts, field/pedestrian contacts, and in asset seizure and forfeiture efforts. The prohibition against racial/bias-based profiling does not preclude the use of race, ethnicity, or other factors in a detention decision by a peace officer. Race, ethnicity, or other factors may be legitimate indicators in such a decision when used as part of a description of a suspect or witness for whom a peace officer is searching. (A 01.02.09)

414.03 COMPLAINT PROCESS, PUBLIC EDUCATION AND CORRECTIVE ACTION

- A. Complaint Process.** Any person who believes that a peace officer employed by the City has engaged in racial / bias-based profiling with respect to that person may file a complaint with the City, and no person shall be discouraged, intimidated, or coerced from filing such a complaint, or be discriminated against because they have filed such a complaint. The City shall accept and investigate citizen complaints alleging racial / bias-based profiling by its peace officers. Such complaints shall be in writing, or the city employee, officer, or official receiving the complaint should reduce the same to writing, and should include the time, place, and details of the incident of alleged racial / / bias-based profiling, the identity or description of the peace officer or officers involved, and the identity and manner of contacting the complainant. Any peace officer, city employee, or city official that receives a citizen complaint alleging racial profiling shall forward the complaint to the internal affairs division within 12 hours of receipt of the complaint. Receipt of each complaint shall be acknowledged to the complainant in writing, all such complaints shall be reviewed and investigated by the Internal Affairs Division within guidelines set forth in G.O. 204.00, and the results of the review and investigation shall be filed with the Chief of Police and with the complainant. In investigating a complaint alleging racial / bias-based profiling, Internal Affairs shall seek to determine if the officer who is subject of the complaint has engaged in a pattern of racial / bias-based profiling that includes multiple acts constituting racial / bias-based profiling for which there is no reasonable, credible explanation based on established police and law enforcement procedures. A single act constituting racial / bias-based profiling may not be considered a pattern of racial / bias-based profiling.
- B. Public Education.** The police department shall provide education to the public concerning the racial / bias-based profiling complaint process. A summary of the public education efforts made during the preceding year shall be included with the annual report filed with the governing body under 414.04 below.
- C. Corrective Action.** Any peace officer who is found, after investigation, to have engaged in racial / bias-based profiling in violation of this policy shall be subject to corrective action, which may include reprimand; diversity, sensitivity or other appropriate training or counseling; paid or unpaid suspension; termination of employment, or other appropriate action as determined by the Police Chief. (A 01.02.09)

414.04 DATA COLLECTION AND ANNUAL REPORTING GUIDELINES

For each traffic and subject stop in which an officer is not dispatched, the peace officer involved in the stop shall collect information identifying the race or ethnicity of the person involved in the stop, stating whether a search was conducted, and if a search was conducted, whether the person stopped consented to the search. The information collected shall be compiled in an annual report covering the period January 1 through December 31 of each year, and shall be submitted to the Mayor and City Council no later than March 1 of the following year. The annual report shall not include identifying information about any individual stopped or arrested, and shall not include identifying information about any peace officer involved in a stop or arrest.

414.05 COLLECTION, COMPILATION, AND REPORTING REQUIREMENTS *(Revised 04-09-10) (Revised 12-08-14)*

- A. Each peace officer of the City shall make the following report for each traffic stop and for every subject stop that an officer is not dispatched:
 - 1. a physical description of the driver involved in a traffic stop and a physical description of each person involved in an officer-initiated subject stop, including:
 - a. the person's gender;
 - b. whether the officer knew the person's race or ethnicity prior to contact; and
 - c. if the race or ethnicity was unknown prior to the stop, the race or ethnicity as stated by the person. If the person does not state a race or ethnicity, it shall be determined by the officer to the best of their ability;
 - 2. the traffic law or ordinances alleged to have been violated or the suspected offense;
 - 3. whether the officer conducted a search as a result of the stop, and, if so, whether the person detained consented to the search;
 - 4. whether any contraband was discovered in the course of the search and the type of contraband discovered;
 - 5. whether probable cause to search existed and the facts supporting the existence of that probable cause;
 - 6. whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
 - 7. the street address or approximate location of the stop; and
 - 8. whether the officer issued a citation as a result of the stop, including a description of the violation charged.

- B. The following process shall be adhered to when officers conduct traffic stops or subject stops in which the officer is not dispatched:
 - 1. Officers must checkout on every vehicle and subject stop, via MDC mark out or radio communication with dispatch.
 - 2. A call for service will be initiated automatically for every vehicle and subject stop. Initiating the call requires no additional action by the officer. However, the call must be cleared with a disposition code at the conclusion of the stop.
 - 3. Every officer with a MDC must clear the call on the MDC and not through dispatch. Only an officer without a properly operating MDC will clear the call through dispatch.
 - 4. Every vehicle or subject stop must be cleared with a six-letter sequence. The six-letter sequence captures data in six categories of information: race, gender, reason for stop, whether a search was conducted, final outcome, and resident status. The officer is required to collect the information only on the driver (not the passenger(s)) on a vehicle stop. The officer must collect the information on each subject stop. For example, if 3 individuals are questioned on a subject stop, then there should be three calls opened and closed using the six-letter sequence. The codes are as follows:

- **(race)** (Note: Officers may not ask the individual to identify their race) (Revised 04-09-10)

If officer knew race prior to contact:

- A = Asian
- C = Black
- I = Hispanic
- F = Native American
- X = White
- P = Other
- L = Middle Eastern

If officer did not know race prior to contact:

- D = Asian
- B = Black
- H = Hispanic
- E = Native American
- W = White
- O = Other
- K = Middle Eastern

- **(gender)**
M = Male
F = Female
- **(reason for stop)**
X = hazardous violation
N = non-hazardous violation
I = investigative stop
- **(final outcome)**
K = arrest, misdemeanor
L = arrest, felony
C = citation
R = released without either a citation or arrest
(Note: When an individual is arrested for a felony and misdemeanor, enter the arrest letter L)
- **(resident status)**
A = Arlington resident
V = Visitor (does not reside in Arlington)
- **(search outcome)**
P = consent search, property found
Q = consent search, drugs/alcohol found
S = consent search, no contraband found
T = probable cause search, property found
U = probable cause search, drugs/alcohol found
V = probable cause search, no contraband found
Z = no search conducted

(Note: Facts supporting the probable cause for the search (only if probable cause was present and if a search was conducted) must be placed in the “MI” field. If both property and drugs/alcohol were found as the result of a search, the officer will mark the more serious offense of the two.)

5. The six-letter disposition code must be entered in the exact sequence as listed as above and without any commas (or other marks) between the letters.
 6. It is important that the clearance of the call be recorded separately from any other police activity:
 - If the call vehicle or subject stop results in any additional police action (such as an arrest), an additional separate call must be initiated and cleared independent of the vehicle or subject stop call.
 - Whenever a second call is initiated, the officer must connect the two incidents by listing the traffic or subject stop call number in the “MI” comment area of the second call.
 - The officer should clear the traffic or subject stop call as soon as reasonably possible in order for all new information to be connected to the correct new call.
 7. Special Circumstances: Overtaking/Pursuits without a vehicle stop, stopping suspect vehicles or individuals related to open calls:
 - When an officer engages in overtaking or a pursuit and the vehicle is not finally stopped, it does not qualify as a “vehicle stop” for the purposes of this program. An attempt to stop a vehicle that turns into a pursuit shall be cleared “change to investigation, clear #6).
 - An officer stopping a suspect vehicle or individual related to an open (dispatched) call should carry that stop as part of the open call, and not as a traffic or subject stop.
 - An officer that stops a subject because they witnessed an offense would open a call based on that offense and this program would not apply.
- C. The information in each report shall be analyzed and compiled in a report that covers the period January 1 through December 31 of each year, and shall be submitted to the Mayor and City Council no later than March 1 of the following year. Each such report shall include:
1. a comparative analysis of the information compiled by each officer under 414.05A (1)-(8) to:

A person who on September 1, 2001, held a TCOLE intermediate proficiency certificate, or who had held a peace officer license issued by TCOLE for at least two years, shall complete a TCOLE training and education program on racial / bias-based profiling not later than September 1, 2003. (A 01.02.09)

**Educational Campaign Relevant to
the Complaint Process:
Addressing Allegations of Racial
Profiling Practices**

Informing the Public on the Process of Filing a Racial Profiling Complaint with the Arlington Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a racial profiling complaint. In an effort to comply with this particular component, the Arlington Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a complaint on a racial profiling violation by an Arlington Police officer. It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

Racial Profiling Training of Law Enforcement Personnel

Racial Profiling Training

Since 2002, all Arlington Police officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Arlington Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Arlington has been included in this report.

It is important to recognize that the Chief of the Arlington Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Arlington Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers

2. The driver and passengers are questioned about things that do not relate to the traffic violation
3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

- A. Drug courier profile (adapted from a profile developed by the DEA)
1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
 2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
 3. Vehicle is rented
 4. Driver is a young male, 20-35
 5. No visible luggage, even though driver is traveling
 6. Driver was over-reckless or over-cautious in driving and responding to signals
 7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

- A. Thinking about the totality of circumstances in a vehicle stop
- B. Vehicle exterior
1. Non-standard repainting (esp. on a new vehicle)
 2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
 3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
 4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)
- C. Pre-stop indicators
1. Not consistent with traffic flow
 2. Driver is overly cautious, or driver/passengers repeatedly look at police car
 3. Driver begins using a car- or cell-phone when signaled to stop

4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Analysis and Interpretation of Data

Analysis

The Texas legislature, in 2001, passed Senate Bill 1074 which became the Texas Racial Profiling Law. That is, the law came into effect on January 1, 2002 and required all police departments in Texas, to collect traffic-related data and report this information to their local governing authority by March 1st of each year. In 2009, the racial profiling law was modified to include the collection and reporting of all motor vehicle-related contacts where a citation was issued or arrest made. In addition, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of the individual before detaining them. Further, it is required that agencies report motor vehicle related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1st of each year. The purpose in collecting and presenting this information is to determine if police officers in a particular municipality are engaging in the practice of racially profiling minority motorists.

The Texas Racial Profiling Law also requires police departments to interpret motor vehicle-related data. Even though most researchers would probably agree with the fact that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is very difficult to determine if individual police officers are engaging in racial profiling, from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific “individual” racist behavior from aggregate-level “institutional” data on traffic or motor vehicle-related contacts.

As stated previously, in 2009, the Texas Legislature passed House Bill 3389, which modified the existing Racial Profiling Law by adding new requirements; this took effect on January 1st, 2010. These most recent changes include, but are not exclusive of, the re-definition of a contact to include motor vehicles where a citation was issued or an arrest made. In addition, it requires police officers to indicate if they knew the race or ethnicity of the individual before detaining them. Also, the more recent law requires adding "middle eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1st of each year. I am pleased to inform you that these additional requirements have been addressed, since 2009, by the Arlington Police Department as it is demonstrated throughout this report.

In an effort to comply with The Texas Racial Profiling Law, the Arlington Police Department commissioned the analysis of its 2014 motor vehicle contact data. Thus, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2014 motor vehicle-related data. This particular analysis measured, as required by the law, the number and percentage of Caucasians, African Americans, Hispanics, Asians, Native Americans, Middle Easterners and individuals belonging to the “other” category, that came in contact with the police in the course of a motor vehicle-related contact. Further, the analysis included information relevant to the number and percentage of searches (Table II) while indicating the type of search performed (i.e., consensual or probable cause). Also, the data analysis included the number and

percentage of individuals who, after they came in contact with the police for a motor vehicle-related reason, were arrested.

The additional data analysis performed was based on a comparison of the 2014 motor vehicle contact data with a specific baseline. When reviewing this particular analysis, it should be noted that there is disagreement, in the literature, regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Arlington Police Department opted to adopt, as a baseline measure, the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2010) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households.

It is clear that census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only. Thus, excluding individuals who may have come in contact with the Arlington Police Department in 2014 but live outside city limits. In some cases, the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

Since 2002, several civil rights groups in Texas expressed their desire and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). This, in essence, constitutes a comparison that may result in ecological fallacy. Despite this, the Arlington Police Department made a decision that it would use this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the Dallas Fort Worth (DFW) Metroplex.

It should also be noted that the Arlington Police Department opted to report on ALL contacts made during the course of a motor vehicle contact. In the first table, contacts made in the course of a motor vehicle contact (not including pedestrians) were reported. This does include written warnings. Thus, the APD, for the sake of transparency, reported data beyond the minimum requirements of Tier 2.

Tier 2 (2014) Motor Vehicle-Related Contact Analysis

When analyzing the Tier 2 data collected in 2014, it was evident that most motor vehicle-related contacts were made with Caucasian drivers. This was followed by African American and Hispanic drivers. In addition, most contacts were made in 2014 with males for moving traffic violations. As a result of most contacts, no searches were made. Further, of those searches made, most were due to probable cause or consent. In addition, contraband was often found as a result of the search. Of the contraband found, in most instances, illegal drugs/drug paraphernalia was cited as the most frequent item found.

The tier 2 data findings also suggested that an arrest was not made, for the most part, as a result of the stops. Further, of those arrested, outstanding warrants were the most cited reason for the arrest. Most of the locations of the stops were on city streets; this was followed by state highways, reported under the private property or other category. According to the Tarrant County Department of Transportation, there are no longer county roads within the city limits of Arlington.

As mentioned earlier, the Arlington Police Department opted to disclose (and include in this report), all contacts made with individuals in the course of a motor vehicle contact. That is, contacts that qualified (and those that did not) under the racial profiling law are being reported by the Arlington Police Department in an effort to show transparency and disclosure. It should be further noted that the data for all contacts is similar, in nature and context, to the tier 2 data submitted to TCOLE.

Fair Roads Standard Analysis

The data analysis of motor vehicle contacts to the census data relevant to the number of “households” in the DFW who indicated, in the 2010 census, that they had access to vehicles, produced interesting findings. Specifically, the percentage of individuals of African American and Hispanic descent that came in contact with the police was higher than the percentage of African American and Hispanic households in DFW that claimed, in the 2010 census, to have access to vehicles. With respect to Caucasians and Asians, a lower percentage of contacts were detected. That is, the percentage of Caucasian and Asian drivers that came in contact with the police in 2014 was lower than the percentage of Caucasian and Asian households in DFW with access to vehicles.

Summary of Findings

The comparison of motor vehicle contacts showed that the Arlington Police Department came in contact (in motor vehicle-related incidents) with a smaller percentage of Caucasian and Asian drivers than the percentage that resided in DFW and had access to vehicles. Further, the data suggested that the percentage of African American and Hispanic drivers that came in contact with the police in 2014 was higher than the percentage of African American and Hispanic households in DFW with access to vehicles. In addition, the data showed that in a large number of instances, officers did not know the race or ethnicity of individuals before detaining them, when compared to instances where officers knew the race/ethnicity of individuals before they were detained.

While considering the findings made in this analysis, it is recommended that the Arlington Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals; particularly with African Americans and Hispanics. Although this additional data may not be required by state law, it is likely to provide insights regarding the nature and outcome of all motor vehicle contacts made with the public.

As part of this effort, the Arlington Police Department is also encouraged to:

- 1) Perform an independent search analysis on the search data collected in the first quarter of 2015.
- 2) Commission data audits in 2015 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The Arlington Police Department has complied with the Texas Racial Profiling Law.
