

TRUCK ROUTES

Commercial motor vehicles shall be operated on a truck route within the City of Arlington. They may only be operated on a commercial delivery route when it is not possible to use a truck route to fulfill the purpose of loading or unloading at their intended destination. When it is necessary to deviate from an established truck or commercial delivery route for access to a destination point, a truck shall deviate only at the intersection with the street nearest to the destination point and shall return to the truck route by the shortest permissible route utilizing commercial delivery routes as much as possible.

Legend

-  Hazardous Material Route
-  Truck Route
-  Commercial Delivery Route
