RE: Hollandale, Western Plains, and Susan Water and Sanitary Sewer Renewals
City of Arlington, Project No. WUOP14001

Dear Arlington Water Utilities' Customer:

On October 2, 2015 the City Council awarded a water and sanitary sewer renewal project to RKM Utility Services, of Dallas, Texas, in an amount not to exceed \$6,919,532. The location map on the other side of this letter identifies the locations that will be directly affected by construction.

Affected property owners and tenants are invited to a construction public information meeting scheduled for **Thursday, November 18, 2015, from 6:00 p.m. to 7:00 p.m., at City of Arlington City Hall, 101 W. Abram St., Council Briefing Room**, in Arlington, Texas. A short presentation will provide information about the construction activity and the project schedule. In addition, representatives from the Arlington Water Utilities Department and RKM Utility Services will be available to answer questions you may have concerning the proposed construction.

The following is additional information that may help answer questions you have:

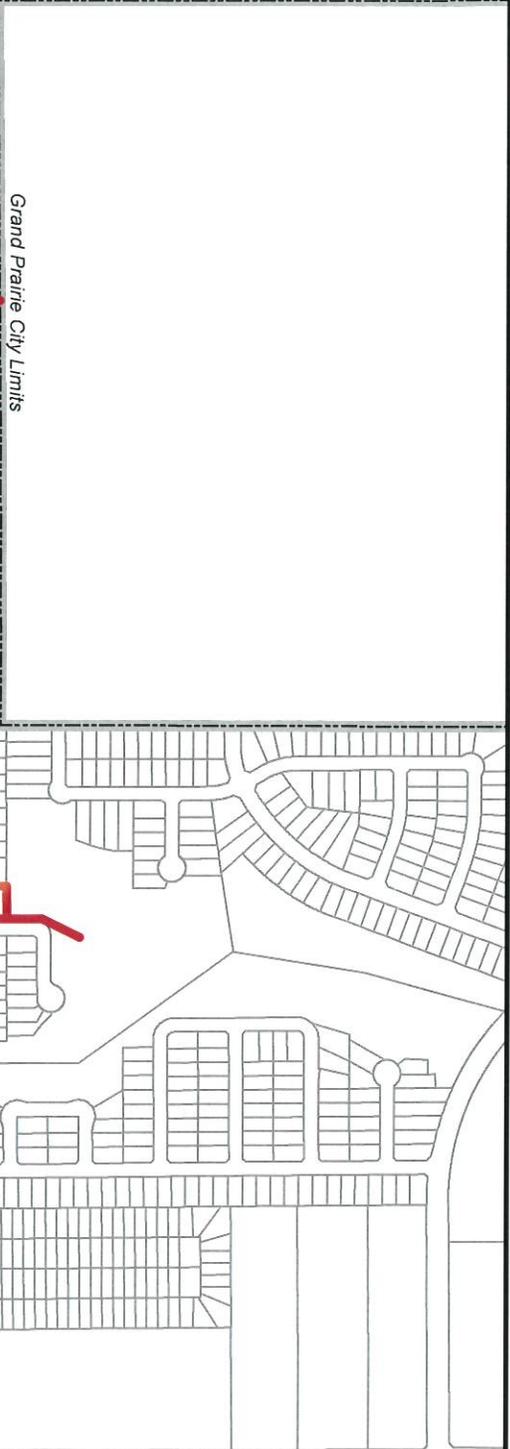

- Construction is scheduled to begin early December 2015. The anticipated construction time is 420 calendar days.
- Project scope includes renewal of water and sanitary sewer mains, water services replaced from the new mains to the water meter and sanitary sewer services replaced from the new mains to the property line or the easement line. All the streets within the project limits will be repaved by street reclamation.
- Grass areas affected by construction will be restored by the contractor with sod or hydromulching to match the existing condition and will require watering by the property owner after being established. City Construction Inspector will videotape the project area to document existing conditions before the start of construction.
- The streets might be closed to through traffic during construction, but residents will be provided access to their properties. Parking in your driveway may be restricted at times during the installation of pipes and subsequent street reclamation. This will be coordinated with you by the contractor.
- If you have any questions or concerns during construction, please call Gabriel Moreno, City Inspector, at 817-459-6550.
- We will provide project status updates during construction which will be available at <http://www.arlington-tx.gov/water/>, located under Stay In Touch > Construction Activities.

Thank you in advance, for your patience and cooperation. If you have any questions or concerns, please contact me at (817) 459-6646 or email me at justin.kirchdoerfer@arlingtontx.gov.

Sincerely,

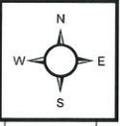

Justin Kirchdoerfer, P.E.
Civil Engineer
