RE: Basin 15 Water and Sanitary Sewer Improvements
City of Arlington, Project No. WUSS12008

Dear Arlington Water Utilities' Customer:

We appreciate your patience during construction in your neighborhood. These improvements will result in an upgraded road service and improved services through the replacements of aging water and sanitary sewer lines.

The project scope completed to date is as follows:

- Water and sanitary sewer mains and services have been completed.

Currently the contractor is working on the following items:

- Concrete and asphalt pavement in Abram and Norwood (east of Bowen). The work should be completed in February 2016, weather permitting.

This is the last monthly project status update for this project available at <http://www.arlington-tx.gov/water/construction-activities>, located under Basin 15 Water and Sanitary Sewer Improvements.

Once again we appreciate your patience during this project. If you have any questions or concerns during construction, please call Joel Whitley, City Inspector, at 817-459-6550 or me at 817-459-6636 or Lori.Du@arlingtontx.gov.

Sincerely,

Lori Du
